Q4

To reach our collective potential, we must work together to build up Ottawa. That requires a council in which each member commits to city wide leadership. What is your intended approach to collaboration with council, city staff and economic partners?

Be solutions driven - generally everyone wants to see the city succeed, unfortunately not everyone views success as meaning the same.

I commit to working tirelessly with the council and stakeholders to ensure that the path forward is a path of success and a path that leads to Ottawa growing as the best city in Canada.

Q5

What key characteristics and skills do you possess that make you a great leader and ambassador for the city of Ottawa, and the national capital region?

I have experience in business, people management & government process - my rounded experience lets me know how government processes work with a realistic business approach of getting things done. Government processes do not need to be cumbersome and lengthy; we need action now and I commit to getting things done quickly.

Q6

What are your top three priorities for Ottawa's future?

1. reliable & diverse transportation.
 2. enhanced portfolio of housing for Ottawa Community Housing - utilize the corporation to benefit from programs that are currently being used by private developers.
 3. make Ottawa fun again - we are the capital city, we need to be a leader in tourism and show off the great things our country, provinces & city has to offer.
