Ward

Ward 21 - Rideau-Jock

Q4

To reach our collective potential, we must work together to build up Ottawa. That requires a council in which each member commits to city wide leadership. What is your intended approach to collaboration with council, city staff and economic partners?

I have been in the Federal Government for 20 years, a strong Community Association Director of Safety at a few different Organizations and a advocate for Small Businesses as I have also been one for a decade. I have collaborated with so many ladies who lunch, shop local and support council and community involvement as a strategy to share - engage and work together on similar topics and issues that relate to both. I look forward to the opportunity to work in a larger way that involves more in Council - the new mayor and city staff while also being invited out to so many events and meetings to understand the greater needs throughout Ottawa.

Q5

What key characteristics and skills do you possess that make you a great leader and ambassador for the city of Ottawa, and the national capital region?

I am a passionate- committed - dedicated and empathetic to become more involved and increase my knowledge and understanding to the greater issues which Ottawa is responsible for and takes pride within.

Q6

What are your top three priorities for Ottawa's future?

For my Ward #21 Specifically I seek to - critically analyze Rural Development and ensure the infrastructure and amenities are within every single plan presented and make sure it makes sense (I have lived in Barrhaven prior and lived through much of the transition to what it is today- I bring knowledge and experience to draw on) 2. Is safer school zones and increase police presence for speeding while working with all partners to find solutions on traffic calming measures. Safety is top of mind with three young children - also many residents are expressing the same to me, 3. Working closely with emergency personnel and Ottawa Hydro ensuring an emergency preparedness plan is available and can be promptly activated where needed (collaboration with all community association leaders)

Q7
